

PSC S.p.A.
Engineering & Contracting

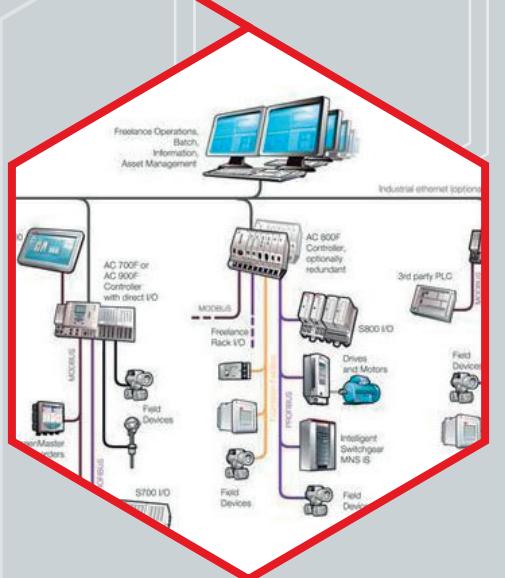

**AUTOMATION
& POWER
DISTRIBUTION**

EXPERT IN INTEGRATED AUTOMATION SOLUTION

PSC can supply
and manage project scope
through the entire
Project Life Cycle:

Design

Procurement

Service

Execution

More than 30 years
of experience in Integrated Automation Solution
PSC can develop Project life
Cycle on → New System → Upgrades → Retrofits

updating for
commissioning

TAILOR-MADE

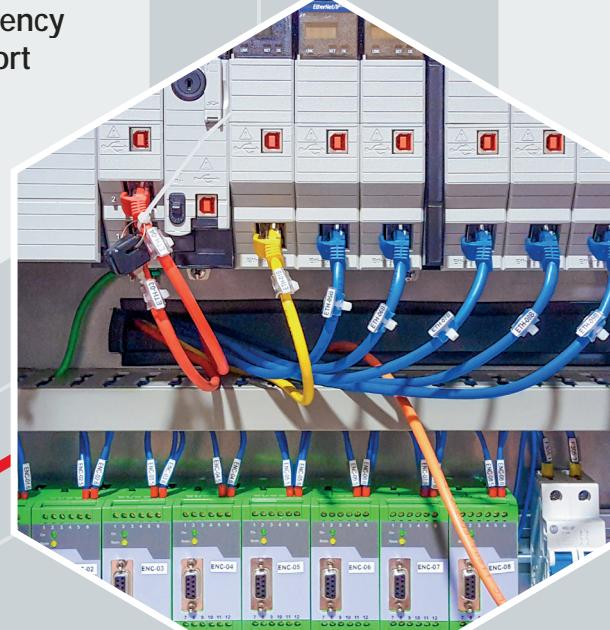

PSC is a supplier of process control systems specialized in tailor-made solution for every specific need in many industrial sector. Examples of solution:

SOLUTION

- DCS - I/O Capacity from 2.000 up to 16.000, PAC, PLC - I/O VCapacity from 100 up to 6.000, motor control, proces simulation
- HMI, SCADA, Historian and reporting
- SIS, ICSS, Industrial safety & emergency shutdown system and HAZOP support
 - Electric Control and Monitoring System (ECMS)

APPLICATIONS

- Discrete, continuous and process application
- Network design and security, visualization, Enterprise Architecture
- Fire detection and suppression
 - Substation protection and controls automation
- Control room and operator console design

PSC INSTALLATIONS

PROGRAMMABLE LOGIC
CONTROLLER (PLC)
and SCADA SYSTEMS

INTEGRATED CONTROL
& SAFETY SYSTEM (ICSS)

REMOTE
TERMINAL UNIT
(RTU)

CONSULTANCY
SERVICES

DISTRIBUTED CONTROL SYSTEM
(DCS) / ADVANCED PROCESS

More than 300 systems completed & Tested

PROCUREMENT

Procurement as an internal service, as well as service package to Costumer provisioning

Collection of specification to issue RFQ

Technical and economical alignment of vendors

Sourcing / Vendor neutral system integration

Validation and inspection

Storage handling

VENDOR NEUTRAL SYSTEMS INTEGRATION

As a vendor neutral company, PSC occupies a privileged space in the market because it's not biased towards any one solution or supplier, to ensure clients are presented with the best available options from across the market. This unique position is fortified by the great experience gathered over the years by different automation systems.

- Siemens
- Rockwell Automation
- Schneider electric
- Sensia
- ABB
- Emerson

PROJECT MANAGEMENT / EXECUTION

Document
control and
management

Resource's
coordination

Supply chain
management

Construction

Third-party
inspection
(FAT, I-FAT)

Packing
and delivery

CONSTRUCTION

In its thirty years' experience PSC designed and tailored any category of control cabinets:

- Standard
- Suitable to Harsh Environment
 - Suitable to Potentially Explosive Atmospheres
 - PLC / DCS cabinates
- HMI panels or workstations
- Networking equipment, including fiber optic communications
- Operator control station

SIS experience

The protection of people, processes and the surrounding environment remain a significant part of an automation strategy for any industry.

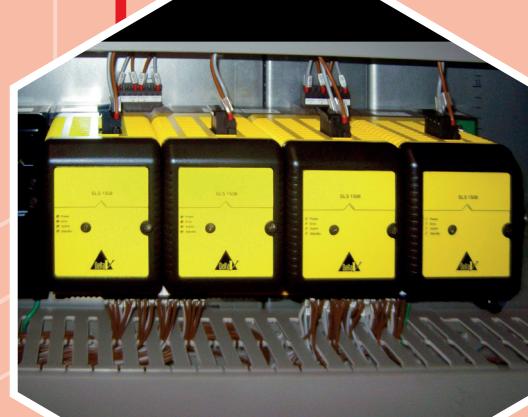

PSC offer solution to help meet Client's process safety standards.

SERVICE

Site service

- Commissioning
- Start-Up
- Site Operator training

After sales

- Maintenance and Operational Support
- Spare parts managements
- Long terms contracts of assistance
- Remote control assistance

CERTIFICATIONS & STANDARDS

The in-depth knowledge of the process plants and of all its applications are part of the cultural baggage of PSC.

PSC's design and constructions are in accordance to all International Standards:

In 2016, PSC achieved UL certification for the realization of "Industrial Control Panels" according to UL 508 standard and the realization of "Industrial Control Panels relating to Hazardous (Classified) Locations" according to UL698A standard:

**UL Certificate
nr. 20160523-E483772**

**CE | Atex
IECEx | EAC
TR-CU | UL
etc.**

PSC S.p.A. Engineering & Contracting
is an engineering partner to EPC Contractors and
End Users all over the world.
